

**EAGLE PLYWOOD
SPECIALTIES**

Since 1972

Quality : Consistency : Choice : Service

*Eagle Plywood Specialties, Inc. is a privately held forest products company that has provided consumers with quality plywood products since 1972. Our Oregon mill offers you a variety of panel solutions for concrete forming, transportation, marine, agricultural, material handling, and numerous industrial and residential applications. We provide a wide range of panel products including **fir sanded specialties, medium and high density overlaid plywood, and structural Douglas fir panels.** Our Advanced Veneer Processing technology and 5' x 12' pressing capability give you greater flexibility in matching panel size to end use — one more reason to consider **Eagle.***
